JOHN McCAIN: A Disaster for Retirees

McCain will jeopardize the retirement we spent a lifetime earning.

McCAIN WILL PRIVATIZE SOCIAL SECURITY

McCain takes more than \$23,000 a year in Social Security but supports privatizing it and investing the money in the unstable stock market. This risky move will jeopardize the chances of a secure retirement for millions of Americans.

McCAIN WILL TAX YOUR HEALTH CARE BENEFITS

McCain wants to eliminate employer-based health care. Under his plan, older Americans will pay higher premiums and could be denied coverage due to pre-existing conditions. [Lambrew, Jeanne M., "Baby Boomers at Risk," Center for American Progress, August 2008]

McCAIN WILL CUT MEDICARE

McCain wants to fund his pro-insurance company health care plan by taking more than \$1 trillion from Medicare. Retirees need a strong Medicare program and can't afford McCain's cuts. [Meckler, Laura, "McCain Plans Federal Health Cuts," *Wall Street Journal*, 10/6/08]
